RE: Well Abandonment Work Plan; Modine Manufacturing Company;
Camdenton, Missouri; EPA ID: MOD062439351

Dear Mr. Sanicola:

The Missouri Department of Natural Resources' Hazardous Waste Program has reviewed the document entitled Well Abandonment Work Plan, Modine Manufacturing Company, Camdenton, Missouri, dated August 2001. The department appreciates Modine's proactive approach to removing groundwater monitoring wells at the facility that could be acting as a transport mechanism for groundwater contamination. The department hereby approves the subject work plan provided that Modine complies with the Missouri Well Construction Rules, 10 CSR-23-4. Any deviation from the Well Construction Rules will require a variance from the Well Head Protection Section at the Division of Geology and Land Survey.

Modine should give the department as much notice as possible (a minimum of 15 days is required by the AOC) prior to implementation of the work plan to allow department representatives the opportunity to observe well abandonment procedures.
